

Just as... I Am

in surprise
pregnancy

Life issues:

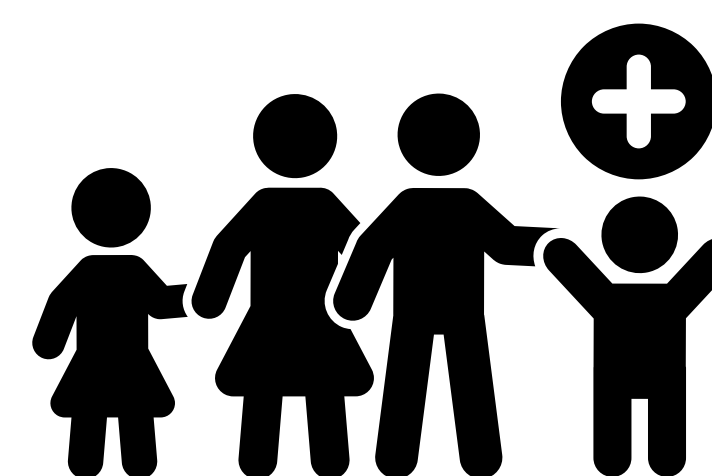

Surprise pregnancy:

Unplanned \neq Unwanted

For every 3 surprise pregnancies, 2 become wanted pregnancies.

Adoption:

1 of every 25 homes has an adopted child.

Older parents:

Due to increased fertility among women 35-44 years and the rising age of first-time moms (27.3 years), parents in their 40s are most likely to be sandwiched between their children and aging parents.

Prenatal diagnosis of disability:

80-93% of positive results on prenatal tests for disability are

WRONG!

His Word:

"Cease to do evil, learn to do good; seek justice, correct oppression; bring justice to the fatherless, plead the widow's cause."

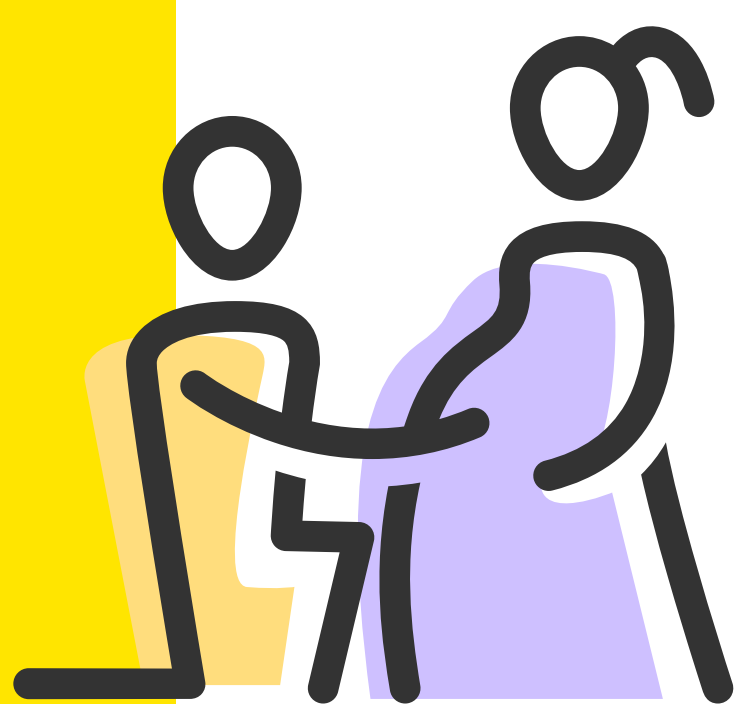

Isaiah 1:16b-17

Our Christian Response:

Surprise pregnancy:

Surprise pregnancies are babies wanted by God, who He created, set apart, and desires to call each one by His grace.

Adoption:

Parents receive adopted children as granted prayers to the Lord for a child. Adoption is also an act of mercy and compassion for children who need homes and families.

Older parents:

We seek the Lord's will and praise Him when we are gifted babies in our old age.

Prenatal diagnosis of disability:

Educate parents and defend the weak against prenatal tests that invalidate the value of all unborn life.
